

## **CONDO (Contractors on Deployed Operations)**

CONDO (Contractors on Deployed Operations) is a comprehensive pre deployment training programme for personnel about to work in hostile or harsh environments within the UK Ministry of Defence's Joint Operations Area (JOA) or theatre of operation to support the UK Armed Forces.

CONDO is a pre-requisite for working along side the military as a civilian employee in places such as Afghanistan and Iraq as well as other volatile places throughout the world. There is usually a bespoke section to CONDO that is location, environment, culture and/or risk specific. Clients may also provide additional bespoke training for certain environments such as helicopter crash survival for offshore assignments.

Contractors will receive training from an approved and accredited training provider to comply with the MoD's CONDO requirements under DEFCON 697 Contractors on Deployed Operations and DEFSTAN (Defence Standard Processes and Requirements) 05-129.

This typically consists of:

- Operations Briefing
- Medical Training
- Basic Safety & Security Procedures
- Life Support
- Threat Awareness
- Administration, Welfare and Discipline
- Use of MOD Provided Transportation
- Status of Forces Agreements (SOFA)
- Chemical Biological, Radiological and Nuclear (CBRN) Personal Protection
- Theatre-specific information
